

CLIMAVER®

Self-supporting insulated ducts

SUSTAINABILITY

BETTER FOR PEOPLE

- High acoustic performance: 30 times less noise than with metal ducts
- High thermal performance
- Very low indoor air emissions

- No metal ducts

BETTER FOR THE PLANET

- Low carbon footprint: $\sim 10\text{kg CO}_2/\text{m}^2$
- Reduced environmental impacts over the whole lifecycle
- Optimized logistics (foldable product)

- 65% recycled materials
- 86% less elements depletion compared to insulated metal duct

PERFORMANCE

BETTER ECONOMIC VALUE

- Time saving on jobsite execution

BETTER QUALITY

- Non combustible
- EUCEB certified

- 63% energy savings compared to insulated metal duct
- 95% less air leakages compared to insulated metal duct
